FORWARD

Première Qualité published in 1994 told the story of my Jaunay ancestry in the nineteenth century. It followed on from two earlier books about my mother's ancestry—*A toast to the future* in 1986 with a supplement in 1992 and, *The Cannell Connection* in 1994. These books were written in a pre-Internet era and were resourced using the memories of my family, library records, correspondence and the services of some professional genealogists in England and Europe.

Since 1994, the Internet and travel to numerous locations in Britain and France seeking information has shed a light on much more information and linked me with distant relatives who share my interests. This culminated in, *Make the skeletons dance* in 2016. This book brought together much more newly found information for both my paternal and maternal lines.

Now this book (which is part of a much larger set as detailed on the next pages) not only updates my family ancestry but looks at developing the collateral lines too. In fact so much information had been uncovered, that to retain some form of reasonable management, I have restricted the focus to my fifth cousins or closer! Even with this limitation the number of names collected currently exceeds 52,500!

This collection of family charts summarising known information brings the reader up to date with my almost continual family history research of 50 years. The material is presented in two sections...

- The first comprises basic charts showing relationships with major life events by date and place with an index.
- The second details the major sources for the information on the charts.

Readers are advised to start by checking the index to the charts to see if a familiar name in your family is mentioned and progress from that point!

All family histories are works in progress. This means that there are likely to be errors regardless of how much care is taken in compiling the data. Every attempt has been made to find a least two pieces of collaborating data, but this has not always been possible. In the case of common names some material is too ambiguous or lacks sufficient detail to know whether it is appropriate or not. In most cases this evidence has been ignored but a few seem too likely to be omitted even though I cannot be 100% certain they are correct and if it proves to be incorrect then the fault is mine entirely.

NOTES

The charts within this edition are updated versions of the charts in the previously mentioned publications.

A number of conventions have been employed to assist in navigating these charts.

1. Relationships at the head of each page pertain only to the author.
2. Direct ancestors/descendants are displayed in red. **Allan Edgar John JOHNSON**
3. Relatives are displayed in green. **Thomas Rackham CANNELL**
4. Persons displayed in black are not blood relatives but related by marriage.
5. Unless otherwise stated on the page, the data attached to each name is as known.
6. Navigate from chart to chart using the page numbering system.  
7. A descent line with a bar indicates no known issue. 
No line where issue is unknown.
8. The data against each person on the chart should be read from the top down as it relates to that person at the head of the entry. If spouse previously or subsequently married this is noted where known.
9. Individuals killed in military conflicts or died of wounds are marked with a poppy. 
10. Known matches of yDNA (paternal), mtDNA (maternal) and atDNA (shared) are indicated on the charts. 
11. Dates are recorded according to the calendar used by the jurisdiction at the time. See the following note on this topic.

In an effort to detect when name changes occurred, surnames recorded are those found in the earliest known record for each individual. However, given names recorded are those most frequently used over a lifetime. In the main nicknames and other abbreviations have been ignored in the charts, but some of this information is shown in the sources section.

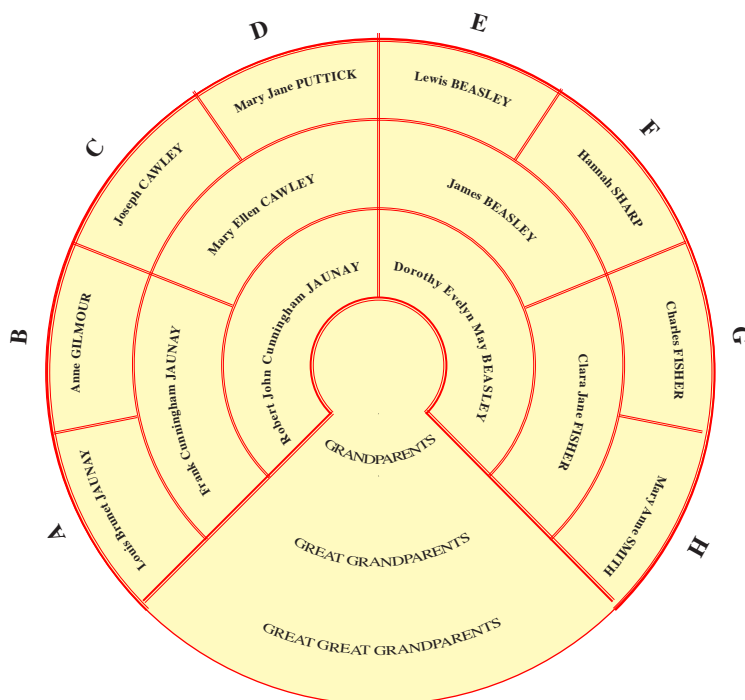

The degree of kinship between two persons related by blood outlined in the following charts applies only to the first cousins of the compiler. All other relationships need to be calculated using the usual guide lines or online cousin calculators.

Undertaking family history research in the UK may require an understanding of the changes made in the calendar...

To 1751 the British Isles formally followed the Julian calendar whereby the year commenced on Lady Day, 25 March and ended the following year on 24 March. From 1752 the year would officially begin on 1 January. In 1752 the calendar was adjusted in September to accommodate the leap years not previously recognised by the deletion of the dates 3 to 13. This was important because much of Europe had already addressed this matter previously! The new calendar was known as the Gregorian calendar. To make it clear dates on charts from 1 January to 24 March prior to 1752 are dated for both calendars. Thus, a baptism on 3 February 1712/13 means the event occurred in 1712 under the prevailing Julian calendar but by today's Gregorian calendar would be recognised as occurring in 1713.

Essentially I have taken all my paternal ancestors and published a set of charts for each line. This is detailed in the following table with the subject of this book highlighted...

 m. 4 Oct 1725
 Bath SOM: St James

Sarah BAILY
 bu. 31 Oct 1775
 Batheaston SOM:
 St John the Baptist

Prior to 1751 the English year started on Lady Day 25 March and so dates recorded in parish registers between 1 January and Lady Day are according to the old calendar and are recorded here as composite years. Thus 17 Jan 1730/1 indicates that the entry in the register is 17 Jan 1730 but under our current Gregorian calendar that date is now 17 Jan 1731.

The Fisher family arrived at Port Adelaide on 21 July 1854 on the *Ostrich*.
 The Fishers had a long association with the Adelaide Cooperative Society and Charles Fisher with his son, Thomas, were two of the ten signatories to establish the organisation.
 This consumer co-operative initially opened for business in 1868 in the Fisher home on Carrington Street. Before the Society secured its own property in Carrington Street, it also operated out of the Fisher's shop in Hindley Street.

Ford family

When Lydia Fisher nee Ford died in 1833, the family were living in Hat & Feather Yard in the Bath district of Walcot (in the 1851 census the name was recorded as Hat & Feather Court). The place took its name because it was effectively in the former yard of the adjacent Hat & Feather Hotel located at 14 London Street Walcot. Archaeological excavations in the Yard in the 1980-90s showed that people settled here shortly after the invasion in 43AD before the Baths and Temple were built by the Romans. Charles Fisher, the son of Isaac Organ and Lydia [nee Ford] was born at Bath on 14 February 1827 and baptised at Walcot in 1828. Isaac Fisher was a carpenter who worked out of his home at 13 Hat and Feather Yard. His son Charles continued the trade but established himself in London. Charles married Mary Ann Smith, the daughter of George and Harriet [nee Tremayne]. Mary Ann's father had died of a ruptured blood vessel in the brain while walking down a Bath street when Mary Ann was three years old.

SOURCES

1. The following pages give the sources for the data on the charts.

2. Each person in the charts is recorded on the pages following in alphabetical order.

3. Abbreviations used can be found on the adjacent table. Location codes for places such as SCT for Scotland are explained on each chart page.

4. A blank source field or an unsubstantiated note indicates the information has been provided without supporting documentation.

5. Age: indicates the age at death or the age at time of publication.

6. Occupation: adapted from a range of records.

7. Census: dates indicate a census return is on file.

8. Parents: recorded if known, but no determined attempt has been made to locate parents of people marrying into the family.

9. Children: the tally is for all marriages.

10. Birth: if the baptism is known then this is included within brackets. If the baptism is the only known early record then this is entered instead of the birth.

11. Marriage: in the case of more than one marriage, details of other spouses are listed under the other spouse name. Previous and subsequent marriages of persons marrying into the family are not listed but a note may be found in the charts.

12. Death: if the burial/cremation is known then this is included within brackets. If the burial/cremation is the only known record then this is entered instead of the death.
